

Today your child will be coming home with their School Jam log in details. This will enable them to participate in Maths activities at home.

### **What is School Jam? How does it work?**

School Jam is a KS1 home learning program designed to match the Power Maths learning your child will be doing in school. Your child's teacher will send quick, fun maths activities for you to do at home with your child. All the activities are linked to what your child is doing at school. Play digital games together and challenge each other at practical activities! You can also watch short maths help videos revealing how your child is learning maths at school!

### **Using School Jam at home**

Each child has a unique homepage and can log into it by following these steps:

1. Go to [www.activelearnprimary.co.uk](http://www.activelearnprimary.co.uk)
2. Enter the login details.
3. Your child's homepage will appear.
4. Go to **"My Stuff"** and click on **"School Jam"**
5. A new tab will appear with activities for you to complete with your child
6. After completing an activity, children will receive coins which they can then spend in the 'Pupil World.'

If you have any questions or are experiencing difficulties with the website please let your child's teacher know or address an email to Mr. Singleton via the school office.

Kind Regards,

Mathew Singleton
